

POWERED BY **Dialog**

Integrated circuit (IC) card processing system for delivery management of application to IC card, selects application by referring database corresponding to common execution environment when application is to be delivered to IC card

Patent Assignee: NTT DATA TSUSHIN KK

Abstract:

JP 2001236232 A

NOVELTY The data about execution environment of application of various IC cards and data about execution environment of application to deliver is stored in a database (6). The stored data is referred to select application corresponding to common execution environment, when application is to be delivered to IC card.

DETAILED DESCRIPTION INDEPENDENT CLAIMS are also included for the following:

- (a) IC card;
- (b) IC card processing method;
- (c) Disk for storing IC card processing software

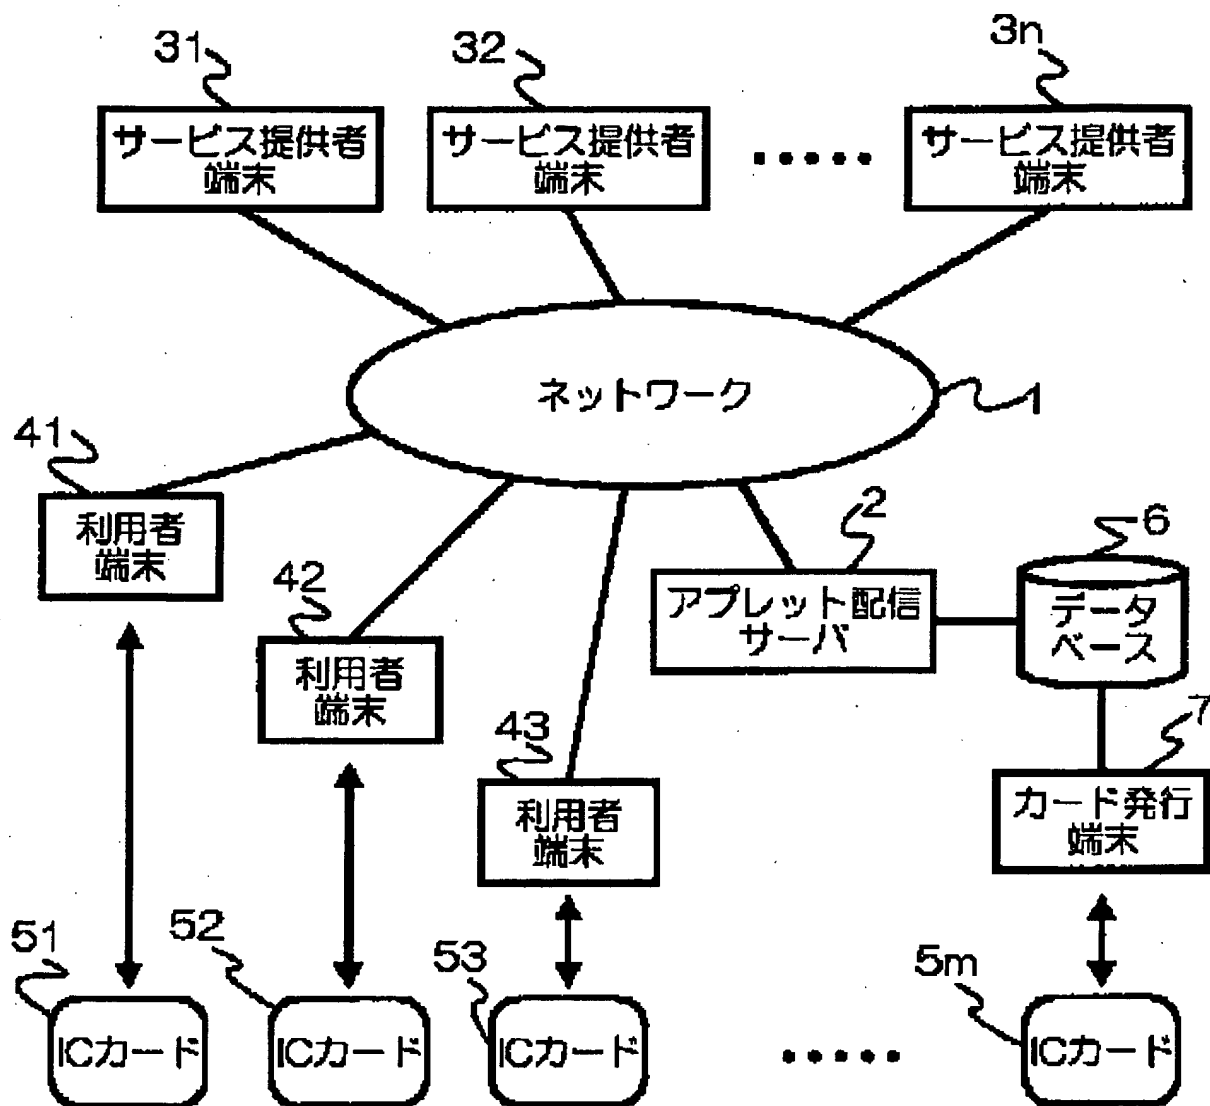

USE For delivery and management of application to IC card, IC chip of portable telephone.

ADVANTAGE Simplifies installation of various applets to IC card.

DESCRIPTION OF DRAWING(S) The figure shows block diagram of IC card processor system.

Database (6)
